

# 2000 Index

- A-B**  
 Adhesive, new starch-based, Apr-8  
 Air quality  
   and wind-blown dust, Mar-19, Jul-14  
   ionizers and, Mar-20  
 Alpine pennycress, for soil cleaning, Jun-4  
 Aluminum tolerance in crops, Jun-4, Nov-23  
 Animal management, low-stress, Nov-4  
 Animal-to-human diseases, Feb-18  
 Antioxidants  
   in blueberries, Sep-10  
   in seed coat of beans, Sep-20  
   in tomatoes, Sep-14  
 Apple maggot, control with decoy, Jan-12  
 Asian longhorned beetle control, Jun-18  
 Attractants  
   for Colorado potato beetle, Feb-22  
   for mosquitoes, Feb-12  
   pheromones for Siberian moth, Apr-20  
   synthetic lures, Apr-20  
*Bacillus thuringiensis (Bt)*, alternative to, Apr-17, Aug-8  
 Bean breeding, Sep-20  
*Beauveria bassiana*, new strain fights caterpillar pests, Nov-12  
 Bees  
   alternative pollinators, May-2, 4  
   blueberry pollination by, Sep-10  
   collection of, Mar-6  
   hive insert traps Varroa mites, Mar-22  
 Biocatalysis, Feb-21  
 Biocontrol  
   of caterpillars, Nov-12  
   of fungi and nematodes on beets, Aug-10  
   of insects, May-16, Aug-23  
   of weeds, Feb-10, Mar-4, May-7, Jul-16  
 Biodiesel burns cleaner, Apr-23  
 Biofungicides for fruit rot fungi, May-23  
 Biomining, burning plants to mine ash, Jun-6  
 Bioremediation, Jun-10  
 Blood pressure in hypertensive rats, Jul-21  
 Blueberry  
   health benefits, Feb-23, Sep-10  
   new cultivars of, Sep-10  
 Botanical illustrations preserved, Sep-12  
 Brazil/U.S. research partnership, May-12  
 Broccoli  
   selenium in and colon cancer, Jun-12  
   sulforaphane in, Feb-23  
   vitamin K in, Jan-16  
 Bronze wilt, cause of in cotton, Nov-21  
 Brucellosis, new vaccine for, Feb-18  
 Brussels sprouts, selenium in, Jun-12  
**C-D**  
 Cadmium hyperaccumulators, Jun-6  
 Canola  
   chlorophyll in oil from, Jan-9  
   to clean up excess soil selenium, Jun-10  
 Cattle  
   cancer-fighting fatty acid in milk, Apr-21  
   diseases of, May-12  
   fescue toxicosis in, Jul-2, 4  
   gene mapping of, Jul-10  
   summer syndrome in, Jul-2  
   virtual fence to round up, Nov-4  
 Cercospora leaf spot in sugar beets, Aug-10  
*Cercospora rubi*, new fungicide for, Jun-23  
 Cesium-137, phytoremediation for, Jun-4  
 Chickens  
   ascites in, May-11  
   gene mapping of, Apr-14  
   lactic acid reduces *Salmonella* in, Nov-20  
   Marek's disease in, Apr-14  
   protein affecting obesity in, May-22  
 Chinese beetles, for saltcedar control, Mar-4  
 Cinnamon extract and diabetes, Jul-21  
 Citrus canker, early-warning for, Dec-20  
 Clay Iron cowpeas as cover crop, Jan-15  
 Climbing fern, moths, mites to control, Jul-16  
 Coffee green scale, Sep-4  
 Colorado potato beetle  
   artificial diets to sustain, Apr-22  
   hairy vetch mulch to control, Sep-23  
   lure for, Feb-22  
 Computer models  
   to predict spillway performance, Feb-4  
   to predict water movement, May-20  
   to predict wind erosion and dust, Mar-19  
 Corn  
   avidin-containing transgenic, Aug-8  
   *Bt* and milkweed populations, Dec-16  
   European corn borer resistance in, Apr-17  
   genetic diversity in, Jan 18  
   low-phytic-acid line of, Mar-13  
   mutant collection, Jan-18  
   seed pretreatment for *Fusarium* in, Jan-8  
 Cotton  
   ARS-improved pimas, May-18  
   benefits of ultra-narrow-row, Jan-20  
   cause of bronze wilt in, Nov-21  
   fiber properties of, Oct-23  
 Cover crops  
   for Colorado potato beetle control, Sep-23  
   for orchard replant disease, Sep-16  
   to improve date yield, Jan-15  
 Dates, sustainable production of, Jan-15  
 Dyeing process for cotton/wool, Nov-8  
**E-F**  
 Erosion control, crop residue for, Jul-14  
*Escherichia coli* O157:H7  
   detecting and controlling on meat, Oct-8  
   fluorescent, Mar-15  
   hydrodynamic pressure to reduce, Dec-19  
 Fabric dyeing of cotton/wool blend, Nov-8  
 Fat analysis in foods, Jun-22  
 Feed  
   canola as, Jun-10  
   kenaf waste as, Aug-14  
   restriction of, May-22  
 Fertilizer  
   kenaf as, Aug-14  
   precision farming and, Jan-4  
 Fescue toxicosis, Jul-4  
 Fiber intake, Jan-23  
 Fish  
   bass hybrid, Feb-16  
   catfish feedings, Jul-23  
   mechanized sorting of, Jul-20  
   production techniques, Feb-16  
 Flavonoids in beans, Jul-21, Sep-21  
 Flax, new retting process for, Sep-23  
 Flood control, Feb-2, 4  
 Floral and nursery crops, Sep-2, Dec-2  
 Food safety  
   *E. coli* detection and, Mar-15  
   of pork, Aug-18  
   of sprouts, Aug-16  
   *Salmonella* growth factor AHL, Jan-11  
 Food storage  
   behavior of fats in, Jun-22  
   canning quality tests for beans, Sep-20  
   grain cooling and, Apr-18  
   preserving produce, May-23, Oct-22  
   tomato shelf life, Sep-14  
 Formosan subterranean termites, overview of control efforts, Oct-12  
 Forum: Biological Control: Important Tool for Managing Invasive Species, Mar-2  
 Forum: Blue Orchard Bees and Other New Pollinators for Agriculture, May-2  
 Forum: Enhancing Plants for Western Rangelands, Apr-2  
 Forum: Furthering the Well-Being of Farm Animals, Nov-2  
 Forum: A Grass Roots Analysis of Tall Fescue, Jul-2  
 Forum: Horticultural Research: It's a Growing Process, Sep-2  
 Forum: Hydraulic Lifelines for Soil, Water, and People, Feb-2  
 Forum: Keeping the Bloom on the Floral and Nursery Industry, Dec-2  
 Forum: Microbial Genomes: Unraveling Their Potential, Aug-2  
 Forum: Mighty Mites: Ubiquitous, Inconspicuous, Harmful, Helpful, Oct-2  
 Forum: Teaming Up for Better Water Quality, Jan-2  
 Forum: Using Superplants To Clean Up Our Environment, Jun-2  
 Fruit, fresh-cut  
   alternative sanitizers, May-23  
   preserving of, Apr-23, Aug-23, Oct-22  
 Fuel, soy-based biodiesel, Apr-23  
 Fungicide, blackberry spray schedule, Jun-23  
 Fungi  
   fighting weeds with, Feb-10, May-7  
   identifying with PCR, Aug-12  
   in tall fescue, Jul-2, 4  
   *Metarhizium* for termites, Oct-12  
*Fusarium*, new causes of, Aug-4  
**G-H**  
 Gene mapping  
   of chickens, Apr-14  
   of cows, Jul-10  
   of sugar beet, Aug-10  
 Genetic engineering  
   of canola, Jan-9  
   of corn, Aug-8  
   of raspberries, Oct-19  
   of wheat, Dec-18  
   safety testing for products of, Sep-2  
 Genetic fingerprinting of seeds, Jul-12  
 Germplasm  
   microbial collections of, Aug-2  
   storage of, Feb-23  
 Global Positioning System (GPS)  
   and precision agriculture, Jan-4  
   to track Formosan termites, Oct-12  
   use to round up cattle, Nov-2, 4  
 Global warming, methane production from rice and, May-22  
 Grain, pests of, Apr-18, Jul-22, Aug-8  
 Grapes, Pierce's disease of, Nov-23  
 Grass  
   improving rangelands with, Apr-2, 4  
   new roadside crested wheatgrass, Mar-23  
   northern grasses, Feb-23  
   seeding rangeland with after fire, Mar-23  
   toxicity from, Jul-2, 4  
   use in waterways, Feb-2  
 Grazing management without fences, Nov-4  
 Guayule latex products and diseases, Mar-23  
 Heavy metals, plants rid soil of, Jun-2, 4  
 Herbaceous perennials online, Sep 18  
 Herbicide  
   protein from *Fusarium* as natural, Feb 10  
   reduction of in groundwater, Sep-23  
 Historical agricultural items, Mar-23, Sep 12  
 Horticultural crops and industry, Sep-2  
 Human nutrition  
   added-sugar intake, Jun-17  
   anemia, Mar-13, Aug-13  
   cinnamon extracts and insulin sensitivity, Jul-21

dietary fat and obesity, Mar-14  
 dietary shakes, May-19  
 glucose metabolism, Jul-21  
 high-fiber flour, May-21  
 insulin sensitivity, Jul-21  
 low-calorie sweetener, Jul-19  
 nutrient intake, Jun-17  
 of Hispanic Americans, Jan-23  
 phytonutrients, Feb-23  
 vitamin B<sub>12</sub> deficiency, Aug-13  
 vitamin K and bone, Jan-16  
*Hyalella azteca*, water quality and, Feb-9  
**I-J-K**  
 Insecticides  
   ditches to trap runoff of, Sep-23  
   environmentally friendly, Apr-10, Jun-23  
   vetiver grass as alternative to, Oct-12  
 Insects  
   artificial diets for, Apr-22  
   Asian longhorned beetle control, Jun-18  
   biocontrol of, May-12  
   biocontrol with, Mar-2  
   caterpillar control, Nov-12  
   flour beetle control, Jun-23  
 Integrated Pest Management  
   for Mexican corn rootworm, Nov-18  
   in stored grain, Apr-18  
   Russian wheat aphid control, Jul-22  
 Japanese brome, as forage, Nov-20  
 Jojoba, appetite suppressant in, Dec-21  
 Kaolin, coating fruit trees with, Nov-14  
 Kenaf  
   new uses for fiber and byproduct, Aug-14  
   to clean up excess soil selenium, Jun-10  
 Kudzu, mycoinsecticide for, Oct-23  
**L-M-N**  
 Late blight, study of fungal cause of, Aug-23  
 Leafhoppers, new species found, May-23  
 Leafy spurge, biocontrol of, Mar-4  
 Leptospirosis, causes of and vaccines  
   against, Feb-18  
 Low-temperature scanning electron  
   microscopy, studying mites with, Oct-4  
 Lycopene, in tomatoes, Sep-14  
 Lyme disease, deer pesticide collars, Jan-23  
 Manure  
   algae to clean, Jul-22  
   disease-causing microbes in, Jan-23  
   odor-causing microbes in, Mar-16  
 Mastitis, new vaccine for, Nov-22  
 Mayapple, cancer-fighting compound in, Jul-9  
 Mealybugs  
   biocontrol of, May-16  
   pesticide dips for, Sep-4  
 Meat  
   making more tender and safer, Dec-19  
   trichina-free certification of pork, Aug-18  
 Medfly  
   environmentally friendly control of, Apr-10  
   longer-lasting attractant for, Oct-20  
   recycled medfly diet for livestock, Mar-18  
   sterile male production, Jun-14  
 Mexican corn rootworm, control of, Nov-18  
 Microorganisms, odors caused by, Mar-16  
 Milkweed, survey of in Iowa, Dec-16  
 Mites  
   as biological controls, Jul-18, Oct-4  
   control of, Jun-23  
   research and use, Oct-4  
 Monarch butterfly and milkweed, Dec-16  
 Mosquito  
   attractants for, Feb-12  
   biocontrol agent for, Aug-23  
 MSEA, water quality program, Jan-4  
 Nematode development, Sep-23

North Plains Evapotranspiration Network,  
 Dec-12  
**O-P-Q**  
 Ogallala Aquifer, conservation of, Dec-12  
 Onion hybrids, Jul-23  
 Ozone stress in plants, Apr-13  
 Pest control  
   of weeds, Mar-2, May-7  
   vetch mulch for Colorado potato beetle  
   control, Sep-23  
 Pesticide  
   application and nursery crops, Dec-4  
   dips, Sep-4  
   effective new sprayer for a, Nov-23  
   transport in groundwater, Jan-4  
   viewing coverage of with electron  
   microscopy, Dec-4  
 Pest risk assessment, role in easing wheat  
   embargoes, Dec-14  
 Phosphorus in waterways, Jan-4  
 Phytonutrients, report on health benefits of,  
 Feb-23  
 Phytoremediation, Jun-4  
 Piroplasmiasis (equine babesiosis), Jul-8  
 Plants  
   CO<sub>2</sub> and ozone and, Apr-13  
   hyperaccumulation in, Jun-4  
 Plum pox virus on stone fruits, Nov-10  
 Pollinators  
   new for blueberries, Sep-10  
   of sweet cherry and almond, May-2  
   specimen collection of, May-6  
 Potatoes  
   breeding resistance to late blight, Sep-8  
   four new varieties, Dec-8  
   unique potato virus collection, Mar-19  
 Precision agriculture  
   in the U.S. and Brazil, May-12  
   systems approach, Oct-16  
 Quarantine  
   facilities, Mar-7  
   for foreign bacteria, May-7  
**R-S**  
 Ragweed pollen, atmospheric CO<sub>2</sub> may  
   increase, Nov-23  
 Rangelands  
   enhancing with plants, Apr-4  
   prevention of cheatgrass, Mar-23  
 Raspberry bushy dwarf virus, Oct-19  
 Rats, colon cancer studies in, Jun-12  
 Replant disease, control of, Sep-16  
 Rhizoctonia root rot in sugar beets, Aug-10  
 Rice, genetic markers for breeding, Dec-11  
 Salmonella  
   electrostatic system for removing, Mar-20  
   in fresh produce, May-23  
 Scab (*Fusarium* head blight), Aug-4  
 Scanning electron microscopy  
   to study mites, Oct-4  
   to study pesticides on leaves, Dec-4  
 Seed oils, composition of, Jun-22  
 Selenium, in broccoli, Jun-12  
 Snail control in orchids, Sep-4  
 Soil  
   conservation practices, Jan-20  
   cover crops improve quality of, Jan-15  
   detoxification of, Jun-2, 4, 10  
   erosion control, Jul-14, 19, Feb-4  
   fungal populations in, Sep-16  
   nitrogen fixing in, Jan-15  
 Soybeans  
   field processing of, Apr-23  
   soybean cyst nematode, Sep-23  
 Soy isoflavones affect cell responses, Feb-15  
 Spillways for flood control, Feb-4

Spinosad for medfly control, Apr-10  
 St. John's-wort, quality and potency of, Jul-12  
 Sugar beet pests and diseases, Aug-10  
 Sunflower disease resistance, Nov-11  
 Swine  
   bacteria in manure of, Mar-16  
   feed additive to improve immune  
   response of, Aug-23  
   trichina-free pork, Aug-18  
**T-U-V**  
 Tall fescue, toxicity to cows, Jul-4  
 Technology transfer, pilot plants aid, Aug-20  
 Termites, new baits for Formosan, Oct-12  
 Tests  
   fluorescence assay for *E. coli*, Mar-15  
   for identifying triglycerides, Jun-22  
   for piroplasmiasis, Jul-8  
   high-performance liquid chromatography  
   (HPLC), Jul-12  
 Thrips, Jun-23, Sep-4  
 Ticks, deer collar kills, Jan-23  
 Tillage  
   leaching, Jan-4  
   no-tillage system, Jan-15  
   ridge tillage's effects on pesticide  
 Tomatoes  
   genetically modified for firmness, Dec-21  
   safer fresh-cut, May-23, slower ripening  
   transgenic, Sep-14  
 Toxicants, feeding stimulants combined with,  
 Nov-18  
 Transplant mix, beneficial microbes in, Oct-23  
 Trefoils, new lines released, Apr-22  
 Tropical flowers, palms, Sep-4  
 Tuberculosis, disease transmission, Feb-18  
 U.S. Pollinating Insects Collection, May-6  
 Vaccines  
   for cattle and bison, Feb-18  
   for mastitis, Nov-22  
 Varroa mites  
   screen to separate from bees, Mar-22  
   SEM studies of, Oct-4  
 Virtual fence, Nov-4  
 Virus collection, Mar-19  
**W-X-Y-Z**  
 Water conservation, faxed advisories for,  
 Dec-12  
 Water-hyacinth, biocontrol of, Mar-10  
 Water quality  
   CO<sub>2</sub> and water stress, Apr-13  
   crustaceans sign of good, Feb-9  
   ditches to improve, Sep-23  
   of farm runoff, Jan-23  
   of surface and groundwater, Jan-4  
 Water use  
   hydraulic engineering, Feb-4  
   overapplication of water, Oct-16  
   safeguarding water resources, Jan-4  
   simulated storm runoff, Sep-23  
   water management for rice crops, May-22  
 Weeds  
   biocontrol of, Feb-10, Mar-2, 4, 10, May-7,  
   Jul-16  
   breeding sheep to prefer, Dec-20  
 Wheat  
   cover crop lowers replant disease, Sep-16  
   finer ground whole wheat bread, May-21  
   TCK fungus in, Dec-14  
 Wheat streak mosaic virus, use as viral  
   vector, Dec-18  
 Whey protein, prevents breast cancer in  
   some rats, Oct-10  
 Woody ornamentals, choosing online, Sep-18  
 Xylitol, low-cal sweetener from corn, Jul-19  
 Zoonoses, Feb-18
